

## SAFETY DATA SHEET

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO THE CRITERIA OF SAFE WORK AUSTRALIA

### SECTION 1 - IDENTIFICATION OF THE MATERIAL AND SUPPLIER

**RICHGRO GARDEN PRODUCTS**

203 Acourt Road  
Jandakot, Western Australia 6164

**TELEPHONE:** (08) 6258 7100 (office hours)

**EMAIL:** customerservice@richgro.com.au

**EMERGENCY PHONE NUMBER:** (08) 1800 455 132 Monday to Friday 9am to 5pm

**POISONS INFORMATION CENTRE:** Phone (e.g. Australia 13 11 26; New Zealand 0800 764 766).

**PRODUCT NAME**

Cresco Lawn Fertiliser

**RECOMMENDED USE:**

Lawn food - fertiliser.

### SECTION 2 - HAZARDS IDENTIFICATION

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO THE CRITERIA OF SAFE WORK AUSTRALIA  
NOT CLASSIFIED AS A DANGEROUS GOOD.  
NOT A SCHEDULED POISON.

**PHYSICAL HAZARDS:** Not Classified

**HEALTH HAZARDS:** Not Classified

**ENVIRONMENTAL HAZARDS:** Not Classified

**Label elements**

**GHS Signal Word:** None

**HAZARD STATEMENT:**

None

**PREVENTION**

P102: Keep out of reach of children.

P261: Avoid breathing dusts

P262: Do not get in eyes, on skin, or on clothing.

P264: Wash contacted areas thoroughly after handling.

**RESPONSE**

P352: Wash with plenty of soap and water.

P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313: If eye irritation persists: Get medical advice.

P370+P378: Not combustible. Use extinguishing media suited to burning materials.

**STORAGE**

P402+P404: Store in a dry place. Store in a closed container.

**DISPOSAL**

P501: Dispose of small quantities and empty containers by wrapping with paper and putting in household waste for landfill.

### SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS

Name	CAS Number	Concentration
Ammonium sulphate	7783-20-2	<70%
Potassium chloride	7447-40-7	<40%
Calcium Dihydrogen phosphate	7758-23-8	<2%
Copper oxide	1317-38-0	<1%
Iron oxide (Ferrous Oxide)	1332-37-2	<1%
Zinc Oxide	1314-13-2	<1%
Manganese sulphate	10101-68-5	<1%

Name	CAS Number	Concentration
Coating agent	Not available	<1%
Non-hazardous ingredients or ingredients below concentrations for classification as hazardous	Not available	balance

## SECTION 4 - FIRST AID MEASURES

**GENERAL INFORMATION:** If in doubt, get medical attention promptly. Show this Safety Data Sheet to medical personnel.

**EYES:** Hold eyelids open and rinse the eye continuously with a gentle stream of clean running water for at least fifteen minutes. Seek medical attention if any irritation persists.

**SKIN:** Remove contaminated clothing and wash thoroughly with soap and water. Use water alone, if soap is unavailable. Apply a moisturising hand cream, if available. Seek medical attention if any soreness or inflammation of the skin develops or persists, considered very unlikely. Launder affected clothing before re-use.

**INGESTION:** Rinse mouth out with water ensuring that mouth wash is not swallowed. Give about 250mL (2 glasses) of water to drink. DO NOT attempt to induce vomiting. Seek medical attention as a precautionary measure.

**INHALATION:** First aid is unlikely to be required as a result of exposure during normal use. If symptoms occur, remove to fresh air. Keep warm and at rest. Seek medical attention if symptoms persist.

**Additional Information:**

**First Aid Facilities:** Not required.

**Advice to Doctor:** Treat symptomatically.

## SECTION 5 - FIRE FIGHTING MEASURES

**SUITABLE EXTINGUISHING MEDIA:** Non-combustible powder. Extinguish fire using whatever is suitable for the primary cause of the fire. Carbon dioxide, dry chemical, foam or water fog are all suitable.

**HAZARDS FROM COMBUSTION PRODUCTS:** This product is likely to decompose only after extreme heating when oxides of carbon and other toxic fumes may be formed.

**PROTECTIVE EQUIPMENT:** Fire fighters should wear self-contained breathing apparatus. Keep containers as cool as possible by spraying with water from a protected position.

## SECTION 6 - ACCIDENTAL RELEASE MEASURES

**EMERGENCY PROCEDURES:** Wear protective equipment as specified for handling (See Section 8).

**SPILLS:** Minor spills do not normally need any special clean-up measures. In the event of a major spill, prevent spillage from entering drains or water courses. Sweep up and collect into labelled containers for recycling or disposal. After spills, wash area preventing runoff from entering drains. If a significant quantity of material enters drains, advise emergency services.

## SECTION 7 - HANDLING AND STORAGE

**SAFE HANDLING PRECAUTIONS:** Avoid eye contact and prolonged or repeated skin contact.

**SAFE STORAGE PRECAUTIONS:** Keep out of reach of children. Keep closed, in the original container, in a dry place.

## SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION

**EXPOSURE STANDARDS:** None specified for this product.

**E.S. TWA:**

Copper, dust & mists (as Cu) TWA: 1.0mg/m<sup>3</sup>

Manganese, dust & compounds (as Mn) TWA: 1.0mg/m<sup>3</sup>

Iron Oxide fume (Fe<sub>2</sub>O<sub>3</sub>)(as Fe) TWA: 1.0mg/m<sup>3</sup>

Zinc oxide (dust)

Exposure standards represent the airborne concentration of a particular substance in the worker's breathing zone, exposure to which, according to current knowledge, should not cause adverse health effects nor cause undue discomfort to nearly all workers. The exposure standard can be of three forms; time-weighted average (TWA), peak, or short-term exposure limit (STEL).

**BIOLOGICAL LIMIT VALUES:** None allocated

**ENGINEERING CONTROLS:** Natural ventilation is adequate for normal use of this product.

**PERSONAL PROTECTION:** Requirements depend on working conditions, method of application and quantity of product in use. No special equipment is required for handling small quantities, but safety glasses or goggles should be worn if necessary to prevent eye contact. Nitrile, neoprene, PVC or natural rubber gloves should be worn if necessary to prevent skin contact. Respiratory protection is unlikely to be required for normal use of this product. Avoid inhaling spray mists.

## SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES:

<b>Physical Description &amp; colour:</b>	Granulated solid, light grey.
<b>Odour:</b>	None
<b>Boiling Point:</b>	Not available
<b>Melting Point:</b>	Solid at normal temperatures
<b>Volatiles:</b>	Negligible
<b>Vapour Pressure:</b>	Negligible
<b>Vapour Density:</b>	Not applicable
<b>Specific Gravity:</b>	Not available
<b>Water Solubility:</b>	Soluble
<b>pH:</b>	10% of solution: 4.0 to 8.0
<b>Volatility:</b>	Negligible.
<b>Evaporation Rate:</b>	Negligible.
<b>Auto ignition temp:</b>	None
<b>Flash point:</b>	None
<b>Upper Flammability Limit:</b>	None
<b>Lower Flammability Limit:</b>	None

## SECTION 10 - STABILITY AND REACTIVITY

**CHEMICAL STABILITY:** Stable under normal conditions of use and storage

**CONDITIONS TO AVOID:** Keep out of reach of children. Keep in the original container in a dry area.

**INCOMPATIBLE MATERIALS:** Strong acids and alkalis.

**HAZARDOUS DECOMPOSITION PRODUCTS:** May evolve toxic fumes if heated to decomposition. Contact with strong acids may produce toxic hydrogen chloride gas; contact with hot nitric acid may produce toxic nitrosyl chloride. Contact with alkalis may release ammonia gas. Contact with chlorinating agents, such as calcium hypochlorite or sodium hypochlorite, can form explosive nitrogen trichloride.

**HAZARDOUS REACTIONS:** None known.

**POLYMERISATION:** Will not occur.

## SECTION 11 - TOXICOLOGICAL INFORMATION

**ACUTE - SWALLOWED:** Not hazardous but ingestion of large amounts could still result in stomach upset.

**ACUTE – EYE:** May cause mild, transient irritation. No other symptoms are anticipated once exposure has ceased.

**ACUTE – SKIN:** No symptoms are expected as a result of brief contact.

**ACUTE – INHALED:** Dusts may cause transient irritation.

### CHRONIC HEALTH EFFECTS

No chronic effects are known for this product.

Not listed as a carcinogen by Safe Work Australia, the National Toxicology Program (NTP), the International Agency for Research on Cancer (IARC), the National Institute for Occupational Safety and Health (NIOSH), or the Occupational Health and Safety Administration (OSHA).

No additional data available.

## SECTION 12 - ECOLOGICAL INFORMATION

This product is unlikely to adversely affect the environment. Salts, acids and bases are typically diluted and neutralised when released to the environment in small quantities. Not expected to be an environmental hazard.

## SECTION 13 - DISPOSAL CONSIDERATIONS

**DISPOSAL:** Small volumes may be disposed to household waste. For large volumes, recycling is the preferred option but if that is not practicable, dispose to waste for landfill.

## SECTION 14 - TRANSPORT INFORMATION

This product is not a dangerous good according to the Australian Code for the Transportation of Dangerous Goods by Road and Rail (ADG Code), the International Maritime Dangerous Goods Code (IMDG) nor the International Air Transport Association (IATA) criteria.

UN Number: None allocated  
Proper shipping name: None allocated  
DG Class: None allocated  
HazChem code: None allocated  
Packing group: None allocated

## SECTION 15 - REGULATORY INFORMATION

All ingredients in this formulation are listed in the Australian Inventory of Chemical Substances and National Industrial Chemicals Notification and Assessment Scheme (NICNAS).

## SECTION 16 - OTHER INFORMATION
